

VSO Breeders' List

The breeders on this list have attested that they have done / will do the following health tests and obtained / will obtain certified clearances on their breeding stock before breeding:

- hip radiograph evaluations for hip dysplasia by board-certified veterinarians (SM & WH)
- eye clearances by board-certified veterinary ophthalmologists (SM & WH)
- thyroid testing (SM only).

They also confirm to provide a written contract with a health guarantee, lifetime support, and a requirement that puppies be returned to them or that they approve a new home. Their puppies are registered with the Canadian Kennel Club if they reside in Canada, or the American Kennel Club if they reside in the US.

It remains the responsibility of the buyer to research each breeder fully before finalizing the purchase of a puppy. The VSO has various resources at <https://www.vsovizsla.org/find-a-breeder> to guide you.
